

**Jeffrey B. Cooper**

Jeffrey B. Cooper, Ph.D. is founder and Executive Director of the Center for Medical Simulation and Professor of Anaesthesia at Harvard Medical School and Massachusetts General Hospital Department of Anesthesia, Critical Care and Pain Medicine. His landmark research in medical errors in the 1970's is one of the roots of the patient safety movement. Among his awards are the 2003 John Eisenberg Award for Lifetime Achievement in Patient Safety from NQF and the Joint Commission.
